

Busy Ant Maths Year 5 Medium-Term Plans

Unit 1		
<i>Number -</i>		<i>Geometry -</i>
Number & place value	Addition & subtraction	Properties of shapes

Unit 5		
<i>Number -</i>		<i>Geometry -</i>
Number & place value	Addition & subtraction	Properties of shapes

Unit 9		
<i>Number -</i>		<i>Geometry-</i>
Number & place value	Addition & subtraction	Properties of shapes

Unit 2		
<i>Number -</i>		<i>Geometry -</i>
Multiplication & division	Fractions	Position & direction

Unit 6		
<i>Number -</i>		<i>Measurement</i>
Multiplication & division	Fractions	(length)

Unit 10		
<i>Number</i>		<i>Measurement</i>
Multiplication & division including <i>Measurement</i> (money)	Fractions	(volume & capacity)

Unit 3		
<i>Number-</i>		<i>Measurement</i>
Addition & subtraction	Decimals	(mass)

Unit 7		
<i>Number-</i>		<i>Statistics</i>
Decimals	Addition & subtraction	

Unit 11		
<i>Number-</i>		<i>Geometry-</i>
Addition & subtraction including <i>Measurement</i> (money)	Percentages (including fractions and decimals)	Position & direction

Unit 4		
<i>Number -</i>		<i>Measurement</i>
Multiplication & division	Multiplication & division	(time)

Unit 8		
<i>Number -</i>		<i>Measurement</i>
Multiplication & division	Percentages (including fractions and decimals)	(perimeter & area)

Unit 12		
<i>Number -</i>		<i>Statistics</i>
Multiplication & division including <i>Measurement</i> (money)	Multiplication & division including <i>Measurement</i> (money)	

Busy Ant Maths Year 5 Medium-Term Plans

Unit 1 Number – Number and place value Number – Addition and subtraction Geometry – Properties of shapes		
National Curriculum attainment targets Pupils should be taught to:	Lesson objectives Pupils will be taught to:	Lesson
Number – Number and place value	Week 1	
<ul style="list-style-type: none"> • read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit • count forwards or backwards in steps of powers of 10 for any given number up to 1000000 • round any number up to 1000000 to the nearest 10, 100 and 1000 	• Read and write numbers to 100 000 and determine the value of each digit	1
	• Order and compare numbers to 100 000 and determine the value of each digit	2
	• Count forwards and backwards in steps 10 and 100	3
	• Round numbers up to 100 000 to the nearest 10, 100 and 1000	4
Number – Addition and subtraction	Week 2	
<ul style="list-style-type: none"> • add and subtract numbers mentally with increasingly large numbers • solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why 	• Add numbers mentally	1
	• Subtract numbers mentally	2
	• Subtract numbers mentally	3
	• Solve addition and subtraction multi-step problems, deciding which operations and methods to use and why	4
Geometry – Properties of shapes	Week 3	
<ul style="list-style-type: none"> • identify 3-D shapes, including cubes and other cuboids, from 2-D representations 	• Identify 3-D shapes with parallel or perpendicular faces or edges	1
	• Use properties to identify 3-D shapes from 2-D representations	2
	• Visualise from the front, side and top 2-D representations of 3-D shapes made with interlocking cubes	3
	• Investigate and identify 3-D shapes which can be made using interlocking cubes	4

Unit 2 Number – Multiplication and division Number – Fractions Geometry – Position and direction		
National Curriculum attainment targets Pupils should be taught to:	Lesson objectives Pupils will be taught to:	Lesson
Number – Multiplication and division	Week 1	
<ul style="list-style-type: none"> • multiply and divide numbers mentally drawing upon known facts • multiply and divide whole numbers by 10, 100 and 1000 	• Multiply numbers mentally drawing upon known facts	1
	• Multiply whole numbers by 10, 100 and 1000	2
	• Multiply numbers mentally drawing upon known facts	3
	• Multiply and divide numbers mentally drawing upon known facts • Multiply whole numbers by 10 and 100	4
Number – Fractions	Week 2	
<ul style="list-style-type: none"> • compare and order fractions whose denominators are all multiples of the same number • identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths • develop their understanding of fractions as numbers, measures and operators by finding fractions of numbers and quantities * • practise counting forwards and backwards in simple fractions * • recognise and describe linear number sequences, including those involving fractions and find the term-to-term rule * [Domain: Number – Number and place value] 	• Find fractions of numbers and quantities using fractions as operators	1
	• Practise counting forwards and backwards in simple fractions • Recognise fraction sequences and find the term to term rule	2
	• Identify, name and write equivalent fractions of a given fraction, represented visually	3
	• Compare and order fractions whose denominators are all multiples of the same number	4
Geometry – Position and direction	Week 3	
<ul style="list-style-type: none"> • identify, describe and represent the position of a shape following a translation, using the appropriate language, and know that the shape has not changed 	• Recognise where a shape will be after a translation on a 2-D grid and know that the shape has not changed	1
	• Translate two or more shapes to make a tiling pattern on a 2-D grid	2
	• Create 2-D shapes which following translations to the left/right and up/down form a tiling pattern	3
	• Identify, describe and represent the position of a shape following a translation in the first quadrant of a coordinate grid and know that the shape has not changed	4

* Notes and guidance (non-statutory)

Busy Ant Maths Year 5 Medium-Term Plans

Unit 3 Number – Addition and subtraction Number – Decimals Measurement (mass)		
National Curriculum attainment targets Pupils should be taught to:	Lesson objectives Pupils will be taught to:	Lesson
Number – Addition and subtraction	Week 1	
<ul style="list-style-type: none"> add whole numbers with more than 4 digits, including using formal written methods (columnar addition) add numbers mentally with increasingly large numbers use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy 	• Add numbers mentally	1
	• Add whole numbers with five digits using the formal written method • Estimate and check the answer to a calculation	2
	• Add whole numbers with five digits using the formal written method • Estimate and check the answer to a calculation	3
	• Add whole numbers with five digits using the formal written method • Use rounding to check answers to calculations	4
Number – Decimals	Week 2	
<ul style="list-style-type: none"> read and write decimal numbers as fractions [for example, $0.71 = \frac{71}{100}$] round decimals with two decimal places to the nearest whole number and to one decimal place practise adding decimals, including complements of 1 (for example, $0.83 + 0.17 = 1$)* recognise and describe linear number sequences involving decimals, and find the term-to-term rule* [Domain: Number – Number and place value] 	• Read and write decimal numbers as fractions	1
	• Round decimals with two decimal places to the nearest whole number • Add complements of 1	2
	• Round decimals with two decimal places to one decimal place	3
	• Recognise and describe linear number sequences involving decimals, and find the rule	4
Measurement (mass)	Week 3	
<ul style="list-style-type: none"> convert between different units of metric measure (for example, gram and kilogram) understand and use approximate equivalences between metric units and common imperial units such as pounds use all four operations to solve problems involving measure [for example, mass] using decimal notation, including scaling 	• Use knowledge of place value, multiplication and division to convert between units of mass (gram and kilogram)	1
	• Know and use approximate equivalences between metric units of mass (kilograms and grams) and common imperial units (pounds)	2
	• Use all four operations to solve problems involving mass using decimal notation	3
	• Use all four operations to solve problems involving mass using decimal notation, including scaling	4

* Notes and guidance (non-statutory)

Busy Ant Maths Year 5 Medium-Term Plans

Unit 4 Number – Multiplication and division Number – Multiplication and division Measurement (time)		
National Curriculum attainment targets Pupils should be taught to:	Lesson objectives Pupils will be taught to:	Lesson
Number – Multiplication and division	Week 1	
<ul style="list-style-type: none"> identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers multiply numbers up to 4 digits by a one-digit number using a formal written method multiply and divide numbers mentally drawing upon known facts multiply whole numbers by 10, 100 and 1000 recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3) solve problems involving multiplication and division including using their knowledge of squares and cubes solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign 	<ul style="list-style-type: none"> Recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3) 	1
	<ul style="list-style-type: none"> Use the formal written method of short multiplication to calculate ThHTO x O Estimate and check the answer to a calculation 	2
	<ul style="list-style-type: none"> Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers 	3
	<ul style="list-style-type: none"> Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign 	4
Number – Multiplication and division	Week 2	
<ul style="list-style-type: none"> identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers establish whether a number up to 100 is prime and recall prime numbers up to 19 divide numbers mentally drawing upon known facts divide whole numbers by 10, 100 and 1000 solve problems involving multiplication and division including using their knowledge of factors and multiples 	<ul style="list-style-type: none"> Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers Establish whether a number up to 100 is prime and recall prime numbers up to 19 	1
	<ul style="list-style-type: none"> Divide whole numbers by 10, 100 and 1000 	2
	<ul style="list-style-type: none"> Divide numbers mentally drawing upon known facts 	3
	<ul style="list-style-type: none"> Solve problems involving multiplication and division including using their knowledge of factors and multiples 	4
Measurement (time)	Week 3	
<ul style="list-style-type: none"> solve problems involving converting between units of time use all four operations to solve problems involving measure, including scaling 	<ul style="list-style-type: none"> Solve problems involving converting between units of time 	1
	<ul style="list-style-type: none"> Solve problems involving converting between units of time to calculate durations of time 	2
	<ul style="list-style-type: none"> Use all four operations in problems involving time, including conversions (for example, days to weeks, expressing the answer as weeks and days) 	3
	<ul style="list-style-type: none"> Use all four operations to solve problems involving time, including scaling 	4

Busy Ant Maths Year 5 Medium-Term Plans

Unit 5 Number – Number and place value Number – Addition and subtraction Geometry – Properties of shapes		
National Curriculum attainment targets Pupils should be taught to:	Lesson objectives Pupils will be taught to:	Lesson
Number – Number and place value	Week 1	
<ul style="list-style-type: none"> read, write, order and compare numbers to at least 1000000 and determine the value of each digit count forwards or backwards in steps of powers of 10 for any given number up to 1000000 interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero round any number up to 1000000 to the nearest 10, 100, 1000, 10000 and 100000 solve number problems and practical problems that involve all of the above 	<ul style="list-style-type: none"> Read, write, order and compare numbers up to 1 000 000 and determine the value of each digit 	1
	<ul style="list-style-type: none"> Count forwards and backwards in steps of 10, 100 and 1000 Round any number up to 1 000 000 to the nearest 10, 100 and 1000 	2
	<ul style="list-style-type: none"> Count backwards through zero with negative numbers Interpret negative numbers in context 	3

National Curriculum attainment targets Pupils should be taught to:	Lesson objectives Pupils will be taught to:	Lesson
Number – Addition and subtraction	Week 1	
<ul style="list-style-type: none"> add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) add and subtract numbers mentally with increasingly large numbers use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why 	<ul style="list-style-type: none"> Add and subtract mentally whole numbers and decimals 	1
	<ul style="list-style-type: none"> Add whole numbers with up to six digits using the formal written method Use rounding to check answers to calculations 	2
	<ul style="list-style-type: none"> Subtract whole numbers with up to six digits using the formal written method (decomposition) Use rounding to check answers to calculations 	3
Measurement (money)		
<ul style="list-style-type: none"> use all four operations to solve problems involving measure [for example, money] using decimal notation, including scaling 	<ul style="list-style-type: none"> Solve multi step problems involving number and money, including some multiplication and division, deciding which operations to use and why 	4
Number – Percentages (including fractions and decimals)	Week 2	
<ul style="list-style-type: none"> Recognise the per cent symbol (%) and understand that per cent relates to “number of parts per hundred”, and write percentages as a fraction with denominator 100, and as a decimal solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$, and those fractions with a denominator of a multiple of 10 or 25 make connections between percentages, fractions and decimals * 	<ul style="list-style-type: none"> Know percentage and decimal equivalents of fractions 	1
	<ul style="list-style-type: none"> Find percentages of amounts Solve problems involving percentages 	2
	<ul style="list-style-type: none"> Solve percentage problems Solve problems involving percentages 	3
	<ul style="list-style-type: none"> Solve problems involving percentages 	4
Geometry – Position and direction	Week 3	
<ul style="list-style-type: none"> identify, describe and represent the position of a shape following a reflection, using the appropriate language, and know that the shape has not changed 	<ul style="list-style-type: none"> Recognise and use reflection in a variety of diagrams, including continuing to use a 2-D grid 	1
	<ul style="list-style-type: none"> Recognise where a shape will be after a reflection in given mirror lines and know that the shape has not changed 	2
	<ul style="list-style-type: none"> Reflect a 2-D shape using coordinates in the first quadrant and lines that are parallel to the axes 	3
	<ul style="list-style-type: none"> Identify, describe and represent the position of a shape following a reflection in two mirror lines at right angles and parallel to the axes in the first quadrant 	4

* Notes and guidance (non-statutory)

Busy Ant Maths Year 5 Medium-Term Plans

Unit 12 Number – Multiplication and division, including Measurement (money) Statistics		
National Curriculum attainment targets Pupils should be taught to:	Lesson objectives Pupils will be taught to:	Lesson
Number – Multiplication and division	Week 1	
<ul style="list-style-type: none"> multiply numbers up to 4 digits by a two-digit number using a formal written method, including long multiplication for two-digit numbers divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates 	<ul style="list-style-type: none"> Use partitioning to calculate HTO x TO Estimate and check the answer to a calculation 	1
	<ul style="list-style-type: none"> Use partitioning and the grid method to calculate HTO x TO Estimate and check the answer to a calculation 	2
	<ul style="list-style-type: none"> Use the expanded written method of long multiplication to calculate HTO x TO Estimate and check the answer to a calculation 	3
	<ul style="list-style-type: none"> Solve problems involving addition, subtraction, multiplication and division 4 and a combination of these, including understanding the meaning of the equals sign Use all four operations to solve problems involving money using decimal notation, including scaling 	4
Measurement (money)	Week 2	
<ul style="list-style-type: none"> use all four operations to solve problems involving measure [for example money] using decimal notation, including scaling 	<ul style="list-style-type: none"> Use the formal written method of short division to calculate ThHTO ÷ O (decimal remainder) Estimate and check the answer to a calculation 	1
	<ul style="list-style-type: none"> Use the formal written method of short division to calculate ThHTO ÷ O (fraction remainder) Estimate and check the answer to a calculation 	2
	<ul style="list-style-type: none"> Use the formal written method of short division to calculate ThHTO ÷ O (rounding remainders) Estimate and check the answer to a calculation 	3
	<ul style="list-style-type: none"> Use all four operations to solve problems involving money using decimal notation, including scaling 	4
Statistics	Week 3	
<ul style="list-style-type: none"> solve comparison, sum and difference problems using information presented in a line graph complete, read and interpret information in tables 	<ul style="list-style-type: none"> Solve comparison, sum and difference problems using information presented in a line graph 	1
	<ul style="list-style-type: none"> Complete, read and interpret information in tables 	2
	<ul style="list-style-type: none"> Connect work on coordinates and scales to interpreting information in time graphs 	3
	<ul style="list-style-type: none"> Complete, read and interpret information in tables and begin to decide which representations of data are most appropriate and why 	4
