Using the information you learnt about animals and how they are suited to their environments, create	See Wellbeing activities below.

Home learning overview

Year group: 1

Week beginning: 06.07.2020

	How are they suited to their environment?			an informative poster. Remember to include different facts!	
--	-------------------------------------------	--	--	-------------------------------------------------------------	--

Website links/key information:

Wellbeing

- Draw an outline of your hand and on each finger – draw and write the name of someone that you can turn to for advice. Keep the hand safe to remind yourself that there’s always someone you can talk to.
- Draw a picture of yourself. Then think about how your family, friends and teacher would describe you. Write those positive qualities around your picture, including the qualities you find hard to see in yourself e.g. my teacher thinks I’m *resilient*, etc. Share ideas as a class and keep the picture safe to remind you of all the positive things people associate you with, especially when you’re feeling down.

Home learning project: Before lockdown, children were given a home learning project based on a significant individual. Children can also continue working on this through the week. It could be focused on any significant individual from around the world, or your culture even! Projects can be in the form of a PowerPoint presentation, poster, 3D sculpture, artwork, etc.
