Save around £80 a year just by remembering to turn your appliances off standby mode

Save about £35 a year on bills by replacing all of your old bulbs with LEDs

Only fill the kettle with the amount of water that you need and save around £7 a year

Turning down your room thermostat by just 1°C can save between £85-90 a year

Turn your lights off when you're not using them. This will save you around £15 on your annual energy bills

DIY draught-proofing of windows, doors and filling holes in floors can save up to £25-£35 a year on heating bills

Washing your clothes at 30°C can help you save significant amount of money on utility bills

When buying new appliances check the EU energy label to make sure you're buying an efficient product
